
Acetylene

safety data sheet - airgas - acetylene 100 74-86-2 ingredient name % cas number there are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section. chemical name :acetylene other means of identification **acetylene - air products & chemicals** - pure acetylene is a unique gas with hazards that arise from its high energy bonds and flammability. these same prop-erties give acetylene its value as a high temperature cutting and welding gas with a very wide range of applications. **acetylene, dissolved gas safety data sheet sds p4559** - : for safety reasons, the acetylene is dissolved in acetone (cas # 67-64-1; flam. liq. 2, eye irrit. 2, stot se 3) in the gas container. vapor of the solvent is carried away as impurity when the acetylene is extracted from the gas container. the concentration of the solvent vapor in the **acetylene cylinder filling settled pressure** - normal for the acetylene pressure in your cylinder to drop. you are not losing product, only pressure. to gain pressure, move your acetylene cylinders to a warmer, safe environment. never store acetylene cylinders in your home or occupied buildings. never use torches or other radiant heat to warm an acetylene cylinder. **safety advisory - leaking acetylene cylinder shutoff valves** - cylinders. acetylene (c2h2) is extremely dangerous because it is easily ignited and burns at a very fast rate. background on january 11, 2010, while cutting rebar at the savannah river salt waste processing facility (swpf) with an acetylene torch, a small fire (3-inch flame) occurred at the cylinder shutoff valve. although the acetylene **partial catalytic hydrogenation of acetylene in ethylene ...** - acetylene itself is a good example of thermodynamically controlled selectivity. this can be proven from the effluence of a fixed bed palladium catalyst reactor, where the resulting ethylene only contains 1-5% ethane although this catalyst have 10 to 100 times greater activity for the hydrogenation of ethylene than **safety data sheet sds number: 001 acetylene** - safety data sheet - acetylene sds number: 001 air products south africa (pty) ltd 2/4 acetylene / rev 3 / 2016-03 cylinders cool by spraying with large amounts of water until fire burns itself out. **oxygen and acetylene use and safety - dept of mines ...** - • acetylene is a compound of hydrogen and carbon (c2h2). • produced when calcium carbide is mixed with water. • needs only 10% mix of oxygen to ignite. **standard operating procedure (sop) acetylene and oxygen ...** - standard operating procedure (sop) acetylene and oxygen safe use for welding ewu eh&s sop page 1 of 16 doc rev 1 3/29/2016 special hazards of acetylene acetylene is the most common gas used for fueling cutting torches. when mixed with pure oxygen in a cutting torch assembly, an acetylene flame can theoretically reach over 5700°f. ...
